

Join — — our mission

Together we can drive climate action, fast. Join our global network of over 1,000 businesses and governments working to maximise impact as a collective and **deliver a just transition to a net zero future.**

Why join our Climate Group programmes?

Policy

Through our Policy Working Groups you will contribute to initiatives that drive and promote policy change, including helping to shape responses to government consultations, position papers, and surveys, to deliver real impact.

Network

By joining us, you become part of our global network of over 1,000 businesses and sub-national governments. We promote international knowledge-sharing through regular updates, exclusive events and a hub of curated resources.

Profile

Gain profile and branding opportunities to demonstrate your leadership to peers, including participation in regular campaigns, speaker slots, and inclusion in progress reports showcasing collective achievements.

Impact

Collective action paves the path to change. Drive real-world progress by joining programmes with clearly defined targets and actionable strategies to help you reach your climate goals.

Our active involvement in Climate Group's RE100,

Smart Energy, EV100 programmes is pivotal to executing our global sustainability strategy. It ensures strong collaboration across a broad ecosystem of like-minded companies as we seek a cleaner, healthier environment for future generations.
