

— Under2 Coalition at Climate Week NYC 2024

Signatory Briefing | August 2024

Climate Week NYC 2024 | It's Time | 22 – 29 Sep 2024

We're in an age of urgency. Yes, investment in the energy transition hit a record high in 2023, overtaking fossil fuels and reaching US \$1.8 trillion. And some governments, organizations and businesses are doing incredible work to speed up climate action like incentivizing renewable energy deployment or fostering innovation in zero-carbon materials.

However, the world also continues to grapple with extreme weather events, with 2024 starting out as the hottest year ever recorded and greenhouse gas emissions not really coming down. We're simply not going fast enough - yet.

That's why [Climate Week NYC](#) is returning with an urgent message: **It's Time**.

We will host business leaders, grassroots activists, heads of governments and civil society representatives of all ages and backgrounds, all bound by the same rallying call: **It's Time**.

And it's urgent. With 2030 fast approaching, the need to halve emissions becomes ever more pressing if we want to keep global warming to no more than 1.5°C. At COP29 and COP30, we also need to develop concrete plans for climate finance. Without this, we are simply undermining global efforts to combat climate change.

The message is clear:

It's Time to phase out fossil fuels and invest in clean energy infrastructure.

It's Time to embed climate action into national and subnational government policies.

It's Time to level the playing field for all countries and ensure equitable access to climate finance.

In short, **It's Time**.

How to participate

For Under2 Coalition signatories – we can accommodate 2 delegates to attend in-person.

Please [register](#) your attendance for ClimateWeek NYC.

Virtual registration is now open – [Register here](#)
