### RE100: The Market Driven Renewable Electricity Transition

#### Opening remarks by Head of RE100

Sam Kimmins, Head of RE100, Climate Group

#### High Level Panel

*What is the potential of the corporate sourcing movement to drive change at global scale? How renewables are now making business sense as well as environmental sense.*

Moderator: Nathaniel Bullard, Chief Content Officer, BloombergNEF

- Paula Abreu Marques, Head of Unit, Renewables and CCS policy, European Commission, DG Energy
- Virginia Covo, Global Director, Supply Chain Sustainability, Anheuser-Busch InBev
- Lord Adair Turner, Chair, Energy Transitions Commission

#### Panel

*Leading companies, governments and utilities discuss the strategies that are enabling them to take advantage of this multi-billion investment opportunity, the importance of corporate renewables in achieving corporate and government carbon reduction goals, and the role of policymakers in unlocking investment opportunities for their domestic industries.*

Moderator: Bruce Douglas, Director, Business & Communications, Eurelectric

- Ainhoa Anda, Senior Lead, Energy Strategy, Google
- Cristina Bernardini, Head of Commercial Office Asia and Oceania, Enel Green Power SpA
- Hiromitsu Hatano, Manager, Sustainability Management Division, Ricoh Company, Ltd.
- Bose Varghese, Head-Green Initiatives, Infosys Limited

#### Closing remarks

Gonzalo Muñoz, High-Level Champion of Chile
